

Hydronic Alternatives is dedicated to educating our trade partners specializing in **hydronic heating** and **high velocity heating and air conditioning**. Our **Heating 101** class is offered monthly at our training in facility in Springfield, Massachusetts. Simply choose a convenient date listed below, and call or email us to register.

Heating 101

Training Class Schedule

9:00 a.m. – 2 p.m.
(Lunch is provided)

This class will discuss hydronic heating principles, as well as review the proper design and installation of radiant heat systems, panel radiators, towel warmers, radiant panel baseboards, single pipe steam conversions, controls, pumps, zone valves and other hydronic specialties.

Wednesdays:

March 30
April 20
May 18

June 15
July 13
August 24

September 14
October 5
November 2

Separate "dedicated training" days on any of our products are also available. A minimum of eight attendees is required. Please contact us for more information or to schedule.

Our Training Class is **free** to attend but **registration is required**.

Maximum class size is 20 so be sure to register early.
