

The new Lotus panel radiator. Beauty and function.

Introducing a radiant heating panel that adds comfort, style and convenience to any room. This attractive radiator is perfect for under windows or where floor space is a premium. The new Lotus radiator features an integrated valve that lets you control each radiator individually with its own non-electric thermostat, distributing the heat evenly throughout your home. **To learn more, call 413-543-8733 or visit hydronicalternatives.com.**
